

**Z-Trek / Z-Trail
Men's 13 (page 1)**

Attention: model Z-Trek (external line)
is a bit longer than model Z-Trail (internal line)

**1. Print this page in the CURRENT SIZE
(100% of scale)**

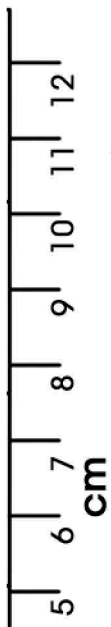

Compare the lateral scale of this page
with a rule.

If the scale does not match the measure of your rule,
Your Xero Shoe will not fit properly,
so it must be correct before putting your foot.

**2. Put your barefoot on this page
within the line, in such a way that
You can see the circle between
1st and 2nd finger.**

If your foot comes off the edge, try a
larger size.

If there is more than 6mm of space from
your heel to your longest finger,
try one size less.
